● Joël Harder

Joël Harder born 1996 is a Swiss and French artist. Graduated simultaneously from Bunka Gakuen University (Tokyo) and EnsAD (Paris) in 202, he now lives and works in Ardèche, while maintaining a regular connection with the urban centers of contemporary art.

His artistic practice investigates the intimate appropriation of public space and the disturbance of social norms shaped by regulated, daytime environments. Drawing on material and immaterial elements from the living world, he develops work through the spaces of the studio and the exhibition, approaching matter from within. The tension between propriety and uncensored desire is translated into chemical processes, artworks, aesthetic situations, and curatorial projects that question bodily uses and propose alternative spaces.

His exhibitions in Europe include those at the Stedelijk Museum (NL), the C.M.C.S.S. of the University of Geneva (CH), the La Panera Art Center (ES), San Serriffe (NL), and the Crous Gallery in Paris (FR). In 2026, a solo exhibition will take place from April to June at La Serre, Saint-Etienne (FR), along with an artist residency at the Maubuisson Abbey (Paris).
